Hiring Manager
Company Name
456 Market Street
City, ST 67890

Re: Application for Position Title

Dear Hiring Manager,

I am writing to express my interest in the *Senior Data Scientist* role at Company Name (Job ID: 12345), which I found via LinkedIn. With 7+ years in applied ML and analytics, leading initiatives from discovery to deployment, I believe I would contribute meaningfully to your team.

Key highlights aligned to the role:

- Led an experimentation platform migration that reduced time-to-insight by 35%.
- Shipped an LTV model improving bid efficiency 18% across paid channels.
- Built ML ops tooling (CI/CD + monitoring) that cut model drift incidents by 50%.
- Partnered cross-functionally (Product, Eng, GTM) to prioritize impact-driven work.

I'm excited by your recent focus on privacy-preserving personalization and the roadmap callouts around on-device inference. The blend of measurable impact and responsible ML mirrors how I've approached prior launches.

Thank you for your time and consideration. I would welcome the opportunity to discuss how my background aligns with the needs of Company Name and the *Senior Data Scientist* role. I am available at your convenience and can be reached at +61 416 542 375 or jiayu@zhangdata.com.

Sincerely,

P.S. I'm happy to share a short write-up on the LTV system referenced above.
